

Andy Chen

Rich experience of building/architecting scalable end-to-end software with full-product-lifecycle, frequently contribute to open source projects and mentor in technical meetups. I care about user experience as much as internal/external developer experience and currently hold Certified AWS Solution Architect - Associate and Certified Kubernetes Application Developer (CKAD)

EXPERIENCE

Minted LLC, San Francisco — *Senior Software Architect* March 2019 - PRESENT

- Improved internal tooling and speed up Jenkins continuous testing/deployment pipelines by at least 5 times.
- Author Kafka python/typescript client library
- Author internal protobuf development process from building, compiling, testing to deploying, distribution and migration, by leveraging GNU make, shell scripts and dockers.
- Maintain and build Kafka python client library, scale Flink/Beam data pipeline from one to N cluster each running K pipelines.

New Internet Service Inc., San Francisco — *Project Lead Developer* July 2018 - March 2019

- Leverage Docker, AWS CloudFormation to speed up the full-node initial process, successfully decrease the usual full-node hosting DevOps from 3 weeks to 15 seconds.
- Distribute stable service globally with CloudFront and Route53, successfully cut server usage by 60% and decreased responding time by 50%.
- Develop a serverless, stateless architecture to deliver the first-of-its-kind full-node monitoring service and won the top 3 as “the most fundable project” on Draper Demo day in Fall 2018.

Bodhi Project, San Mateo — *Senior Software Engineer* May 2018 - Oct. 2018

- Refactored the whole React UI library from redux to mobX architecture in 4 weeks and successfully initiated the migration from electron-based to browser-based DApp which ultimately led to an increase in usage by 2 times.
- Developed and audited production-ready complex solidity smart contracts on QTUM blockchain.
- Introduced style-checking linter and coordinated with teammates to improve the collaboration cycle and speed up the development process.
- Built the prototype of qinfura, a full node service for QTUM ecosystem.
